## Battery Size comparison

Small Battery

Large Battery

## Battery clip installation & cable port

Small Battery

Large Battery

2:1 on A4

## In Vehicle Charger

Can be mounted to a vertical wall or horizontal shelf.

## Charger configuration

Small or Large battery pack fitted at rear

Camera fitted (with small or large battery) in front, screen outwards

Locking mechanism released by silver button

## Charger's "Daisy chained"

Potential to implement intelligent, priority based charging.

- Individual charger always fully charges camera before spare battery, reduces individual charger power requirement.
- First come first served system on power drain from vehicle?
- Thus reduce vehicle power supply requirements to below 5 Amps.

## Desktop Charger
